

Agency Readiness Self-Assessment

The following is a brief self-assessment intended to assist CBOs, etc. to determine if they currently possess the capacity, or can build the capacity, to adopt and implement the *¡Cuidate!* intervention. Please read each item and then place a check mark (✓) in only one response option.

Capacities and Resources Needed for <i>¡Cuidate!</i>	Yes, we have this capacity (1)	We do not presently have this capacity, but can build the capacity (2)	No, we do not have this capacity (3)
1. Two facilitators with experience working with Latino youth (13-18 years old) and knowledgeable about HIV, STD, and pregnancy prevention.			
2. Two facilitators proficient in English and Spanish, depending on language of youth served).			
3. Two facilitators who have a comprehensive understanding of Latino culture (especially sexual relationship dynamics).			
4. One 10-15% full time program manager to conduct oversight and QA activities.			
5. Support staff to help recruit participants, assemble materials, and follow up with participants.			
6. Access to Latino youth and/or agencies serving the population to recruit into the program.			
7. Access to community members to serve on the advisory board.			
8. Access to meeting space to conduct <i>¡Cuidate!</i> trainings.			
9. Agency commitment to implement the entire <i>¡Cuidate!</i> program.			

If all of your responses were in column 1 (“Yes, we have this capacity”) or column 2 (“We do not presently have this capacity, but can build the capacity”), your agency is likely “ready” for *¡Cuidate!*.
