

## **New Tricks for My Next Trick**

I've been hanging out around 11<sup>th</sup> and Anaheim turning tricks for a living. I got into the scene a couple years ago and have been making a steady living since – a lot more money than I made waiting tables. My name's Shauna, but my johns know me as Sugar. That's because I'm known for being hot and sweet! I know I should use condoms with all of my guys if they're gonna screw me, but I make so much more cash if I don't.

My girlfriend is really concerned that I'm going to catch something so she has been showing me ways to make condoms sexier. She says that with the right technique and the right condom all of her men are more than satisfied. She uses them all the time and still rakes in the dough. I know I could do that! I've learned some new tricks for my next trick!

1. **Characterization:** Her name is Shauna, but her johns know her as Sugar.
2. **Membership:** Sex worker.
3. **Risk behavior:** Unprotected sex with multiple partners.
4. **Goal:** Using condoms all the time for sex with her tricks.
5. **Stage of Change:** Contemplation to Preparation.
6. **Influencing Factor:** Subjective norms and Self-efficacy.
7. **Barrier to Overcome:** Making condoms sexier to her sex tricks.

**Strategy:** Learned new technique for making condoms sexier from her girlfriend.

8. **Positive Outcome:** Learned new tricks for her next trick. She also feels positive about being able to use condoms and protect herself.
9. **Source:** Community PROMISE Implementation Manual edition October 2004.
