

No Sex Without Latex

“My sweetness is a man’s weakness.” Hi, I’m Candy Lady and I work the streets for a living. I enjoy sex, but especially for profit. “No money, no honey.” I advise “no sex without latex” because I can get AIDS if I don’t use condoms. I have been using condoms for about three weeks. Most of my customers today are condom ready. If not, I will provide the rubber barrier. I keep a full day supply of latex condoms, thanks to the AIDS Prevention Project!
